

Obviously a city like London offers an extremely wide variety of accommodation options to suit a variety of budgets and standards. Unfortunately we are not a big enough gathering to secure preferential rates at Central London hotels, but we have provided a list here of some of the many options available to Connexion attendees, which the organisers feel are in good central locations with good access to public transport for getting to and from the venue and airports/ mainline train stations.

We have given some guide prices which are based on the Saturday night which is traditionally the most expensive night of the weekend in London, and therefore people staying for nights either side are likely to find better value for the entire weekend.

If you are unsure where to stay or want any help or advice, please do post in the Connexion thread in the VATSIM forum or email us directly at convention@vatsim.net and we will be pleased to help you find somewhere suitable.
